-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 15 January 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

## **DETAILED ACTION**

### ***Election/Restrictions***

Newly submitted claims 7-8 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: claim 8 is drawn to an embodiment not previously elected.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 7-8 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-2 and 4-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Leng [US 6,525,283] in view of Rudolph et al. [US 6,013,884].

Leng discloses a switch structure of a steering wheel [1] at which open portions [2] are formed between an inner periphery of a rim [7] of the steering wheel and an outer periphery of a pad cover [5] of the steering wheel wherein at each of the open portions a switch assembly [figure 4] constituted by a plurality of switches [9, 10] are disposed arranged such that the switching assemblies are symmetrical and can be

mounted, via mounting member [18], in either of the open portions [column 2, lines 45-55].

Leng disclose the instant claimed invention except for end portions of the top side of the switch assemblies being covered by switch buttons extending to an inner periphery of the opening portions.

Rudolph et al. discloses a switch assembly for a steering wheel mounted within an opening between the spokes of a steering wheel via mounts [14] having switch buttons extending to an inner periphery of the opening portions.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to use the switch button design of Rudolph et al. for the switches of Leng for the purpose of optimizing space usage and facilitating operation.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to use the mounting design of Rudolph et al. for the switch structure of Leng, as modified, in order to support the switches.

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-2 and 4-6 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
